Best practices following in North-West Power Generation Company Ltd.

1. Distribution of individual job target for every employee and implementation of Performance Management System (PMS).
2. Successful & efficient implementation of projects within or ahead of the schedule taken by NWPGL.
3. Other than the activities of Audit division, in all power plants, a separate quarterly audit is performed by separate teams comprising of engineers & accounts personnel for all technical & financial activities.
4. In project implementation, NWPGL follows standard EHS policy. Timely completion with fulfilling quality requirements is always a priority.

Challenges faced by North-West Power Generation Company Ltd while following best practices.

1. Various economic, social, technological, environmental & legal challenges in project implementation.
2. Timely completion of the project maintaining all safety & quality requirements is a challenge.

How the State-owned corporations & companies can cooperate among themselves.

1. NWPGL can share knowledge regarding PMS & its implementation with other state-owned corporations & companies.
2. NWPGL is always ready to share the technical as well as project implementation knowledge with other state-owned corporations & companies, and accordingly NWPGL does that.

19.09.2019

Zahid Ur Rashid
